Science Project Ideas

Do you want to learn more about how nature works? Do you ask questions like “Why are my parents always telling me to turn off the lights when I leave?” or “Where does rainwater go after my gutter?” A great way to learn more about your environment is to complete an experiment that answers questions like these. The following websites offer free ideas, examples, resources and directions for great Science Projects that will wow teachers and parents alike. So put on those protective goggles and lab coats and let’s experiment!
